BIG COUNTRY ENERGY SERVICES LP

Company Background

Big Country Energy Services LP is one of the largest pipeline and facilities construction companies in Canada, providing a wide range of services from 10 locations across the western Canadian sedimentary basin. With over 1000 employees and in excess of 400 pieces of equipment, Big Country has the ability to service all of our client's needs.

Big Country's goals are accomplished by setting the highest possible standards in the areas of quality control, project efficiency and safety. Each member of our team has been selected to ensure experienced leadership and unparalleled customer service. This dedication to excellence has been recognized with the honor of being named one of Canada's 50 Best Managed Companies for three consecutive years.

Types & Nature of Work

- General Labourer/Skilled Labourer.
- Equipment Operator.
- Supervisor/Foreman.
- Field Safety Advisor.
- Quality Control Advisor.

- Partsman.
- Welder.
- Pipefitter.
